Child Death Review
Overview

Telling Each Story to Save Lives Nationally
Disclosure

• Neither I nor any member of my immediate family has a financial relationship or interest (currently or within the past 12 months) with any proprietary entity producing health care goods or services consumed by, or used on, patients related to the content of this CME activity.

• I do not intend to discuss an unapproved/investigative use of a commercial product/device.
The National Center is funded in part by Cooperative Agreement Numbers UG7MC28482 and UG7MC31831 from the US Department of Health and Human Services (HHS), Health Resources and Services Administration (HRSA), Maternal and Child Health Bureau (MCHB) as part of an award totaling $1,099,997 annually with 0 percent financed with non-governmental sources. Its contents are solely the responsibility of the authors and should not be construed as the official position or policy of, nor should any endorsements be inferred by HRSA, HHS or the U.S. Government.
About the National Center

Technical Assistance and Training
On-site, virtual and/or recorded assistance, customized for each jurisdiction, is provided to CDR and FIMR teams.

National Fatality Review-Case Reporting System
Support the NFR-CRS which is used in 45 states and provides jurisdictions with real-time access to their fatality review data.

Resources
Training modules, webinars, written products, newsletters, listserv, website and more.

Communication with Fatality Review Teams
Regular communication via listserv, newsletters and regional coalitions.

Follow Us on Social Media
@NationalCFRP on Twitter and Facebook.
Three Steps to Child Death Review

Tell the Story
Tell each story, identified, to understand the risk and protective factors

Collect Data
Multidisciplinary data on the context in which the child lived should be documented

Take Action
Fatality Review Teams should be a catalyst for prevention
**Case Specific Information**
Review agency records for information about the child, family and community

**Professional Liaison**
Explain agency limitations, responsibilities and assist with making linkages to access data and promote prevention

**Data Collection**
Participate in data collection, including access to records and understanding content

**Catalyze Prevention**
Support prevention work through identifying findings, writing recommendations and advocating for change

**Honor Team Agreements**
Abide by agreements related to information access and sharing and actively participate in all aspects of teamwork
Health Equity

“Health equity is achieved when every person has the opportunity to attain his or her full health potential and no one is disadvantaged from achieving this potential because of social position or other socially determined circumstances. Health inequities are reflected in differences in length of life; quality of life; rates of disease; disability; and death; severity of disease; and access to treatment.”

National Fatality Review-Case Reporting System

COLLECTING HIGH QUALITY DATA SUPPORTS PREVENTION

**BEFORE MEETING**

Enter as much data as possible before the review meeting. Highlight key missing and unknown variables.

**DURING MEETING**

Once all team members have shared information, identify any remaining highlighted variables that are missing.

**AFTER MEETING**

Enter information from review meeting within 30 days of the meeting to ensure data quality and completeness.
